Key Knowledge and Concepts

The United Kingdom is made of four countries, England, Scotland, Wales and Northern Ireland.

We have four seasons in the UK, Spring, Summer, Autumn and Winter. These seasons all occur once a year.

Our weather is warmer during the Spring and Summer and colder during the Autumn and Winter.

The weather can change over different days and we can track that by listening to the news and looking outside.

We know the weather affects the clothes we have to wear to keep ourselves warm or cool.
