

How can we make a story book move?

| Word | Definition |
|--------|---|
| Test | To find out that something is working as it should |
| Slider | Something that can move from side to side or up and down. |
| Plan | An idea of what you will create |
| Cut | To separate into pieces |
| Stick | To fix something to another item |

Key Knowledge and Concepts

Up, down, left and right are words which can be used to describe something that moves.

Portrait and landscape are different ways a piece of paper can be used.

A slider can be made using card and it can help a char-

Output

You will then produce a story book with moving parts. To make your characters in you book move, you can add a slider mechanisms which goes from up to down. Or maybe one that goes left to right.
