

Getting more support in school or college

Support

Where you can go to get more support in school or college

Where can I get more support at school or college?

The school or college SENCO can help if you need to ask for more support .

You may get an Education Health and Care plan if you have had an Education Health and Care needs assessment.

The plan uses information from an EHC Needs Assessment to say what you want to achieve. It should include what support must be put in place to help the child or young person.

What is in the plan?

Everyone will have a different plan because it is all about the **individual**.

Everybody's is different.

It will have information like:

- Who they are
- How they communicate
- What their goals are
- What sort of support they need
- What type of school they need

Once this support is written down in the plan, it must be given to you.

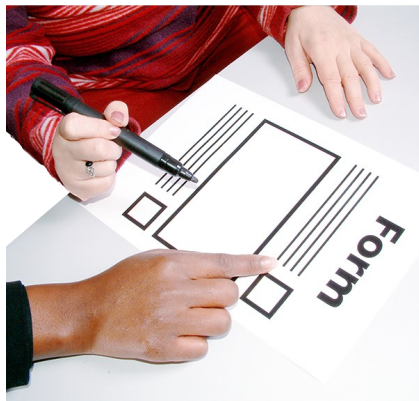

You have the right to say what kind of information you think should be in your plan and who you want to see it.

Who gets a plan?

If you are under 25 and need more support with learning at school or college, you might get a Statutory Assessment that may lead to an EHC Plan.

Will someone help me to get a plan?

Yes, You can ask **SENDIASS Leicester** for support. If you have any questions you can ask one of our members of staff for support.

How Can SENDIASS Help You?

SENDIASS can help you to understand documents or contact people for you. We can also help you to share your views.

You can contact SENDIASS in many different ways:
